

Gino J. Tateo

Walnut Creek, CA 94598

(925) 890-3352 | Tateogino@gmail.com | <https://www.linkedin.com/in/ginotateo/>

Summary

Results-driven professional with a strong background in warehouse operations, systems, and supply chain. Experienced in system implementation, inventory management, data analysis, and process optimization.

Education

Bachelor of Science in **Computer Science** | *California State University, East Bay, Hayward, CA* | 2022

Experience

Logistics Specialist

Peet's Coffee & Tea | *March 2025 – Present*

- Manage transportation performance across 4 different channels.
- Coordinate international shipments including carrier scheduling, and documentation management.
- Partner with roasting plants, centralized DCs, brokers, and carriers to ensure on-time delivery and alignment.
- Support transportation system initiatives Project44 optimization.
- Track carrier performance and resolve shipment discrepancies to minimize service disruptions.

Warehouse Manager

Peet's Coffee & Tea | *July 2023 – March 2025*

- Managed day-to-day **warehouse operations**, ensuring efficient order fulfillment and inventory control.
- Led system implementation efforts, including the rollout of Microsoft Dynamics 365.
- Trained staff on safety protocols, contributing to a safer working environment and reducing workplace incidents.
- Conducted **data analysis to optimize warehouse inventory and improve system efficiency**.

Projects

Supply Chain Network Consolidation

Objective: Transition from Direct Store Delivery (DSD) model to a centralized Direct to customer distribution network to improve cost structure and scalability.

Overview: Led operational execution of a multi-phase consolidation initiatives to eliminate DSD central warehouses.

Key Achievements:

- **Network Rationalization:** Supported closure and consolidation of DSD warehouses, eliminating redundant storage and fleet routes while transitioning volume into centralized DC network.
- **Cross-Functional Execution:** Partnered with Sales, Planning, Transportation, and Warehouse Operations to align customer delivery expectations with new distribution structure.
- **Risk Mitigation:** Ensured uninterrupted service levels during facility closures and routing changes.

Skills

- Python
- Excel
- D365
- Incoterms
- Cross-functional project execution
- Supply chain optimization

Certifications

- Supply Chain Management and Analytics Certification | *Unilever*
